

CYBER SECURITY & NATIONAL LEGAL ALLIANCE

Protect your data, people, and the infrastructure system which supports it all with a solution designed to add value to your legal firm.

Due to the nature of sensitive data that is processed on a daily basis, the legal sector continues to be a prime target to cyber criminal activity. 75% of legal firms have been the victim of a cyber attack, and according to the Solicitors Regulation Authority (SRA), a total of £4m was taken from 23 out of 30 firms due to cyber-related incidents.

It is more imperative than ever to implement an effective cyber security strategy that ensures your firm is protected in our ever-evolving digital world.

WHAT OUR CLIENTS SAY

“We now feel confident that we have consolidated our training, policies and procedures into one location. As part of our induction, we require all staff to sit Mitigate before giving them access to our systems to significantly reduce risk and prevent the likelihood of an internally caused breach.” - **THE CASHROOM**

“Mitigate Cyber have been outstanding throughout what has been a challenging test this year. Lee (Cyber Essentials Assessor) has been brilliant from start to finish, he's understood the challenges and advised and accommodated every question. Big thanks from MLA.” - **MEDICAL-LEGAL APPOINTMENTS LTD**
